**MADE IN ITALY**

TMB was founded in 1980 in ITALY as a manufacturer of dry/wet vacuum cleaners and carpet cleaners.

The TMB brand was gradually established both in the Italian and global markets thanks to the safety, quality and reliability of the company's products. End users are very impressed with TMB's comprehensive range of extractors, dry/wet vacuum cleaners and carpet cleaners: powerful yet compact, they are designed to solve any cleaning issue.

With room for growth , TMB expanded over the years by rationalizing its organizations and introducing new production lines.

Califorea Trading LLC has become the exclusive distributor for TMB Vacuum Machines in the UAE since 2016; and has also established a service center in Dubai to better serve our customers.

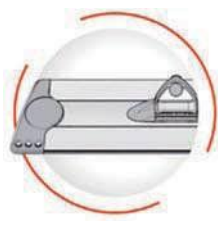

**Your Better Choice**

# MOP HOLDER

  
MADE IN ITALY

**High Impact Materials**  
PP structure for a great wear resistance, both to chemical agent and mechanical stress.

**E-Clip:** quick detachment lever allows an easy mop swap.  
**Rubber Clip:** is compatible with different types of clothes, gauzes and dusters.

**226141**  
KENTUCKY MOP  
HOLDER

**226161**  
VELCRO MOP  
HOLDER

# MOP BUCKET

**MADE IN ITALY**

**Exceptional Strength and Lightness:** innovative design and frame; a selection of the best virgin plastic, not recycled, in order to obtain access to the full strength and durability of the material.

**Manouverability and low noise on the move:** "Silent Wheel" is the newly designed wheel made of bi-component polymer. Diameter 80mm, Made in Italy.

**Better Ease of cleaning and Hygiene:** all surfaces are treated with **Easy&Clean** coating that grants less adhesion to dirt and liquids thus facilitating maintenances.

**107913**

One PP bucket - 25 L  
80mm Pivoting  
Wheels Wringer WS  
90mm Bumpers

Lateral Push Handle

MADE IN ITALY

# MOP BUCKET

**Superior Performances:**  
with a total capacity of 40 Lt its the biggest in its league. With wringer in place, still have 15Lt effective capacity for waste water. The size further facilitates correct washing in 3 phases:

1)impregnation in detergent solution and wringing 2) washing 3) rinsing and wringing

**Quick Out**  
double valve vat drainage system grants a fast waste disposal.

**Better Ease of cleanng and Hygiene:**  
all surfaces are treated with **Easy&Clean** coating that grants less adhesion to dirt and liquids thus facilitating maintenances.

## 107922

## UPRIGHT CARPET CLEANER RANGE

BAT12  
107202

BAT15  
107205

BAT18  
107208

Brush maintenance without tools.

Cusp shaped brush to carry soil towards the area where suction is greatest.

Aluminium bearing support

Automatic cut off if brush is clogged.

Uncoupling pedal with safety clutch

Full dust bag warning light.

5-stage filtering: 2 in the bag, 1 on the motor and 2 supplementary stages. Possibility of using a HEPA filter

Extendible vacuum hose with telescopic tube

# MACHINERY

The BAT series is a line of professional upright vacuum cleaners, with working widths ranging from 30 to 45 cm, and 1 or 2 motors.

With their exclusive design, these cleaners offer technological solutions that improve efficiency and comfort during use. Due to their low centre of gravity, they have excellent stability, are more manoeuvrable and are less tiring to use.

The brush height can be adjusted to suit the surface to be cleaned by means of a practical selector knob. The particular distribution ("cusp-shaped") of the bristles on the brush improves the efficiency of dirt pick-up; furthermore, the brush can be replaced without any need to use tools.

## ACCESSORIES

**BAT12 series accessories:** telescopic extension, flat dust nozzle, compact hose and extra dust bag

**BAT15 and BAT18 series accessories:** handle on hose, telescopic extension, flat dust nozzle, extra dust bag

The off-set position of the engine ensures a well-balanced weight distribution, which translates into effortless use for the operator

The operator can adjust the handle at any of the preset levels for best operating posture

Protection for drive system

Water distribution in the middle

# MACHINERY

It is not just a cleaning machine, but a cleaning system. Easy to use, it ensures high performance on every surface. It is easy to transport and to operate without tiring the operator.

## TP43 ORBITAL

108150

TECHNICAL DATA		TP43 ORBITAL
Drive		Direct
Working width	cm	43
Brush Ø	cm	43
Pad holder Ø	cm	43
Oscillations per minute	No.	1400
Power supply	V/Hz	230/50*
Tank	l	15
Power	W	1100
Machine weight	kg	41
Machine dimensions (l x h x w)	cm	46x120x56

TP43 ORBITAL is suitable for cleaning, stripping, crystallizing, polishing and micro-polishing marble, stone, cement and wood.

Single disc machine with rotary orbital motion, 430 mm pad, direct drive

With TP43 ORBITAL, reduced water consumption and reduced drying times prevent mould formation. Every single fibre is cleaned, revitalized and positioned. Dirt particles are captured and eliminated.

# MACHINERY

## No matter what type of cleaning need you may have, TP43 Orbital is your solution: Suitable for any task, comfortable for any operator

TP43 ORBITAL is a newly devised single disc machine. Its rotary orbital motion improves performance compared to traditional single disc machines.

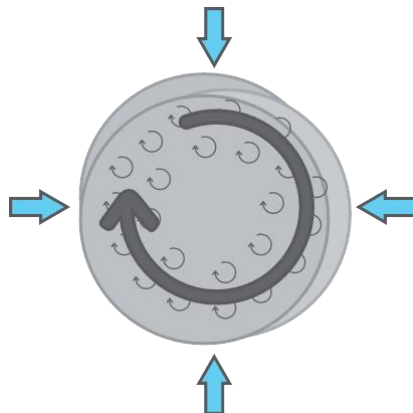

Thanks to the principle of high-frequency oscillations, excellent stability and manoeuvrability are ensured despite its total weight of 41 Kg.

During tasks requiring water, TP43 ORBITAL ensures considerable water savings as water is constantly kept within the disc area, without being dispersed.

In addition to that, this peculiar orbital motion makes TP43 ORBITAL extremely user-friendly for any operator, with reduced times for technical training on the machine.

Thanks to its low current consumption, it can also be used in combination with a vacuum cleaner, both being powered by a standard domestic mains supply.

Two movements in one:  
rotary and orbital

Through motion a vibration is created which ensures extraordinary cleaning, smoothing and polishing performance. This innovative orbital technology ensures thorough and delicate cleaning. Each contact with the floor creates a 1 cm wide circular motion, with as many as 1400 rotations per minute.

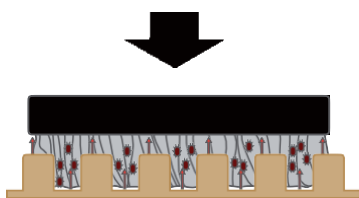

The cleaning effect increases, whereas other factors, such as time, water, chemicals and temperature, decrease drastically.

### Orbital technology protects the environment

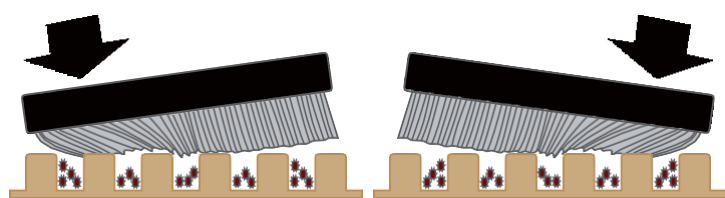

It consumes up to 10 times less water than common cleaning methods. Reduced detergent consumption improves air quality in enclosed spaces.

### TP43 ORBITAL ensures perfect grip to the floor surface

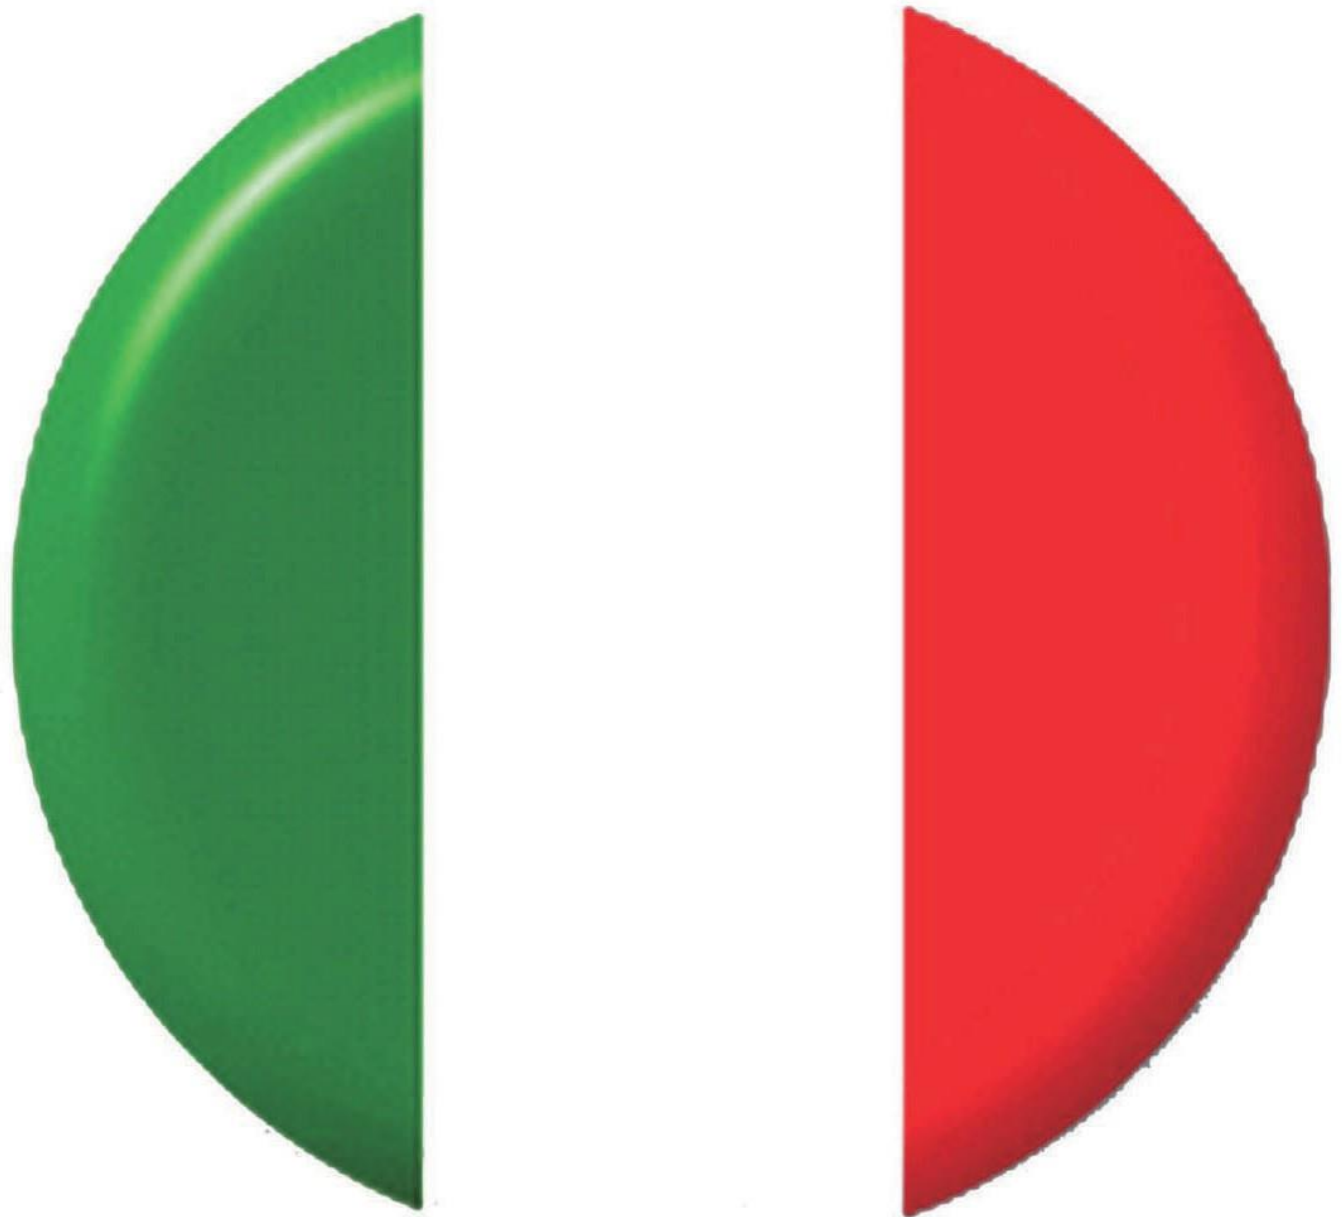

TP43 ORBITAL ensures perfect grip to the floor surface

Traditional single disc machines may have an uneven grip

Thanks to this combination of rotary and orbital motion, its cleaning action is enhanced.

Traditional single disc machines don't cover the whole surface underneath, especially during lateral movements. Lateral overload may damage the floor and not remove dirt completely. With TP43 ORBITAL the cleaning area is always constant and the accessory remains planar to the floor. Imbalances are avoided and productivity is increased.

# MARTINAZZO

The metallurgical Martinazzo Ltd. was founded in 1987 in the town of Garibaldi, located in southern Brazil.

Since its inception, the company has been developing its activities in manufacturing of cutlery and kitchen with dynamism and continuous growth.

The Martinazzo team constantly innovates and improves its quality to meet customer needs. Today the firm produces some of the finest cutlery found in Brazil.

Califorca Trading LLC has been the strategic partner of Martinazzo in the Gulf since 2008.
